

Report-average % correct and % satisfactory

The Thinkgate® Technology Platform provides administrators and teachers with the ability to access a variety of assessment results data in several different formats. Here are directions for pulling a report that displays both the % correct and the % Satisfactory..

Locating Assessment Results

For School Administrators and District Administrators:

Go to the Reporting Tab on the home page

Open up the Expanded search option on the Result Analysis Tile

The screenshot shows the 'Results Analysis' interface. On the left, there are search filters for Grade (05), Subject (Mathematics), Curriculum (Mathematics), Term, and Category. The main area displays a table of results for '05 Mathematics (Percent)' with performance levels: Insufficient (<56%), Limited (>=56% <65%), and Satisfactory (>=65%). A table lists results for Miami-Dade County Public Schools and its Elementary schools, with percentages ranging from 65.88% to 79.03%. Red arrows point to the search filters (1), the school name (2), and a percentage cell (3).

1. You must select the Grade and the Curriculum at the minimum to view reports. In this example, 5th grade Mathematics were selected.
2. Locate your school name and expand the list to view all your teachers results as well as school results
 - a. The Score represented within the score cell by the school name and under the assessment indicates the overall average for that assessment.
 - b. Click on that cell to bring up a list of reports available for that assessment.

This screenshot shows the same interface as above, but with a 'Report Selection' dialog box open over the table. The dialog box is titled '05MAMAT-INT1 as of 11/5/2013' and lists several report options: At Risk, Item Analysis, Proficiency Report, Progress Report, Score Analysis Report, and Standard Analysis. A red arrow points to the 'Score Analysis Report' option (3).

Report-average % correct and % satisfactory

- Click on the Proficiency Report.

Signin successful.

!! Proficient here indicates both those limited and Satisfactory scores!!

5

- The percentage score under the Satisfactory column indicates the % Proficiency for Miami-Dade Students
- In Thinkgate, Proficient totals the percentages of both Limited and Satisfactory scores. (*We are determining if this can be changed for our purposes*).
